

MAINE EAST 2022 | 2023 PROFILE

The School and Community

Maine East High School lies 30 minutes northwest of downtown Chicago in a suburban area serving parts of Des Plaines, Park Ridge and portions of Glenview, Morton Grove and Niles. Maine East educates students who speak 51 languages and 52% of students live in homes where English is not the primary language. The student population is 34.8% white, 5.2% Black, 25.5% Latinx, 31.1% Asian, 0.4% American Indian or Alaska Native, 0.2% Pacific Islander and 2.8% who identify as two or more races.

The enrollment is 1,809 and the average class size is 22. Maine East provides a comprehensive, innovative and rigorous public education program. Curriculum offerings at Maine East are extensive, with over 200 courses offered in 10 departments, including the fine arts, world language and career technical education. Education horizons are broadened via Maine East's distance learning and videoconferencing capabilities, allowing student learning to expand into the larger community. The school provides AP courses and dual-credit courses, as well as a dedicated program to allow students internship and career experiences to help with postsecondary choices.

Grading

District 207 reports a weighted and non-weighted grade point average on the transcript. GPA for all courses is calculated on a four-point scale. Accelerated and AP courses are given one additional bonus point. This is reflected in the weighted GPA.

Driver Education does not count in the GPA. Physical Education counts in the non-weighted GPA. In a Pass/NP course, a passing grade does not affect a student's GPA. However, a failing grade was figured into a student's total GPA as a zero through the fall semester of 2019. Beginning with the spring semester of 2020, a grade listed as NG provides no credit and has no GPA impact. An NG may be used under special circumstances such as an audited course, a withdrawn course due to extenuating circumstances or a failed course.

Maine Township District 207 moved to an integrated math curriculum in the 2019-20 school year. In all courses in the integrated math program, students study content standards in the domains of Algebra, Functions, Geometry, Number and Quantities, and Statistics and continue to develop their proficiencies with the 8 Standards for Mathematical Practice. Math 3 Compression and PreCalc Compression courses go at a faster pace, "compressing" more content so that students are prepared for the skills and rigor of Advanced Calculus BC. All grades received in the integrated math program are unweighted.
